

MONTANA MARATHON & RELAY

START - Elevation = 3960 ft

HIGHEST POINT

Elevation = 4200 ft

HALF MARATHON

START - Elevation = 3770 ft

QUEEN BEE MONTANA MARATHON

COURSE DESCRIPTION

The marathon course starts in the community of Molt, west of Billings, and is on paved roads the whole way. It follows Molt Road east, with a minor diversion out and back on Buffalo Trail, across the prairie featuring some impressive early morning views.

Just before the half-way mark, there is a downhill run on the "hogsback" that will take runners into Echo Canyon.

The course route takes runners through the slightly-hilly residential area of the Yellowstone Country Club before turning on to Rimrock Road. At 46th St. W. the course turns south and shortly eastward again through a residential neighborhood until it hooks up with part of the Heritage Trail System for a run through the tunnel under Shiloh Road.

After a turn north for a few blocks, the course heads west along Poly Drive and eventually to Parkhill Drive which leads to the east side of Pioneer Park where the finish line is located.
